About

Passionate Software Developer working with the MERN Stack, creating efficient, performant, and user-focused and production ready web and mobile applications. Strong focus on performance optimization, clean UI development, scalable backend architecture, and secure API integrations. Previously worked as a Security Researcher, giving a strong foundation in application security and vulnerability analysis.

Experience

MERN Developer @Bondub

FEB 2025-JUNE 2025

- Used frontend technologies like React Native, React.js, and Next.js to design and develop responsive web and mobile applications; also gained hands-on experience with Node.js for backend development.
- Independently developed and deployed the complete blog feature from scratch, integrating GraphQL and RSS APIs for dynamic content delivery. Implemented lazy loading to significantly improve page performance and reduce load time.

Freelancer @Bugcrowd

MAR 2024 – AUG 2024

Security Researcher – Webapps,API's

Remote

- Done penetration testing for multiple companies Found critical security Bugs in companies like Unilever,Canva.

Projects

Dev Duel | *Mongo DB,Express js,React js,Node js*

[Live Link](#)

Description

- * Online coding practice platform focused on Data Structures and Algorithms. Developed an interactive coding environment with real time code execution, automated test evaluation and AI based code review for personalized feedback. Included user progress tracking, difficulty wise problem sets.

Tech Stack

- * **Frontend:** Typescript, React.js, React Query, Context API, Formik
- * **Backend:** Node.js, Express.js, Mongoose, Aggregation Pipeline, Nodemailer, Multer, Cloudinary
- * **Database:** MongoDB
- * **Hosting:** Vercel, AWS
- * **Code Execution Engine:** Judge0 API

Technical Skills

Programming Languages: JavaScript, TypeScript

Front-End Technologies: React.js, React Native

State Management: Zustand, Context API

Databases: MongoDB, Firebase

Version Control: Git, GitHub

Certifications

- IBM Introduction to Cloud
- Microsoft Introduction to networks
- Introduction to Microsoft Azure Cloud
- Google Cyber Security Certification

Education

Assam down town University
BCA CTIS : Bachelor of Computer Application

August 2022 - August 2025
CGPA : 8.58
